Mission

The Warm House’s mission is to empower underserved Adult Women and their Families suffering from mental health disorders, to take control of their destiny and function productively by producing, encouraging, and preserving a positive and uplifting environment through social skills training, motivation, and participating in a two week Step Down counseling program to become successful in their home life. TWH also aims to prepare clients to transmission into Certified Peer Specialist positions.

OUR VISION

Our vision is to move adult women, in the process of mental health recovery, to a condition of empowerment, by enabling them to utilize innovative strategies to create desired planning, and actions that lead to a healthy transition into independence.

TWH will provide many supports in a warm, homelike environment that teaches structure while supporting clients’ individual needs, with use of a supportive step down model that promotes mental health recovery and wellness. The Certified Peer Specialist will have personal experience, through their recovery journey, which will allow them to offer a unique support to clients, not currently available. Services are designed to strengthen and increase self-esteem, self-respect, and respect for others in society, promote healthy living, and raise public awareness to the needs of those living with mental and behavioral health issues.

OUR GOALS

Our goals helping to address the desperate need for Women’s mental health support in western Pennsylvania our current ambition is to introduce a new Recovery and Wellness Service Allegheny/ Beaver County area.
